BOOK SYNOPSIS

The Basic Bookshelf for Eyecare Professionals is a series that provides fundamental and advanced material with a clinical approach to clinicians and students. A special effort was made to include information needed for the certification exams in ophthalmic and optometric assisting, low vision, surgical assisting, opticianry, and contact lens examiners. This handbook is a compilation of information from books in the Basic Bookshelf for Eyecare Professionals. This book serves as an ophthalmic pocket companion for the eyecare paraprofessional, complementary to the entire series. With 100 tables and illustrations throughout the text, the reader will find this an extremely useful guide covering essentially every aspect of patient care. Tables regarding tests, drugs, disorders, motility, first aid, microbiology, and more will have you pulling this book out frequently, even in the exam room. The condensed format makes it ideal for studying as well.
